

i.safe IS530.1 smartphone

Work efficiently in hazardous areas

Wouldn't it be great to have all the features of your smartphone available in Ex areas? That's exactly what the smart and innovate i.safe IS530.1 offers you!

The IS530.1 is an industrial smartphone with current technology. It combines modern design, updated technology and robustness of an industrial product. Delivered including battery, USB cable i.safe PROTECTOR, EU charger, quick start manual and safety instructions.

Approved for use in hazardous areas (Zone 1/21, Division 1), the intrinsically safe IS530.1 helps simplify and streamline the way workers in hazardous industries operate and interact with each other, their remote experts and their back-end systems.

Fast 4G/WiFi/Bluetooth data transmission enables more effective ways of working, better and faster decision-making and more collaboration between workers.

With advanced features such as an extremely good loudspeaker, a powerful battery, water and dust resistance and a sturdy touch screen that can be viewed in direct sunlight and used with dirty or wet work gloves, the IS530.1 is designed to be used under the roughest of working conditions.
